

CATALOGUE

2025

Catalogue includes an exclusive Capsule Collection Made in Portugal.

DEAR CUSTOMERS

As we embark on 2025, we are excited to continue our journey of innovation and quality. This new year brings new opportunities, and we look forward to further elevating our products and brand while staying committed to sustainability.

In 2024, we focused our efforts on expanding our sportswear line and strengthening our presence in the market, and this year, we will continue building on that progress. Our new catalog reflects this dedication, with an emphasis on eco-friendly materials and reduced paper usage. We take pride in offering you high-quality, stylish products that not only meet your expectations but also minimize our environmental impact.

Our latest collection is filled with modern and innovative pieces, including new two-tone polos, sweatshirts, and oversized t-shirts. For those who value high-quality items, we present our São Gabriel and Pátria t-shirts and polos, proudly made in Portugal. The São Gabriel t-shirt is crafted from 100% cotton, while the Pátria polo blends 50% cotton and 50% polyester, providing durability and comfort in a responsible design. These pieces reflect our commitment to responsible production while delivering timeless, high-quality fashion.

We are also pleased to introduce new accessories, such as the Zenith and Pulse caps and the Vortex and Vanguard tote bags. These accessories complement our clothing line and offer practical, stylish options for everyday use.

In 2025, we will continue innovating with our clothing line made from recycled and eco-friendly materials. Each piece is designed to offer both style and substance, proving that fashion can be innovative and environmentally responsible at the same time.

We deeply appreciate your continued support and trust. Your loyalty is the foundation of our success, and we look forward to another year of shared growth, innovation, and success with you. We are excited to offer products that align with your style and values while continuing to reduce our environmental impact.

Best regards,

A stylized, handwritten signature in dark grey ink, consisting of several fluid, overlapping loops and strokes.

Mauro Silva
CEO

A photograph of a courtyard with Gothic architecture. In the foreground, two large, ornate columns with intricate carvings stand on a stone base. The columns are fluted and have decorative capitals. In the background, a building with a conical roof and Gothic arches is visible. A tall, slender cypress tree stands between the columns and the building. The sky is blue with some clouds. The text "TH CLOTHES" is overlaid in white, serif font, with "2025" below it, separated by horizontal lines.

TH CLOTHES

— 2025 —

THIS IS OUR CULTURE

Today our vision is a reality. The Better Cotton Initiative (BCI), or simply Better Cotton, is the largest cotton sustainability program in the world. In just over a decade, BCI has managed to convince stakeholders that span the sector to be its partners, namely, farmers, ginners, spinners, suppliers, manufacturers, brand owners, retailers, adding now more than 2,300 members in the Better Cotton network.

TH Clothes has always taken on a huge commitment with the quality of its products. Proof of this is the obtaining of the Standard 100 by Oeko-Tex certificate, which aims to guarantee the use of regulated substances free from health hazards. Obtaining this certificate is a worldwide synonym that ensures responsible textile manufacturing, and consequently, represents a guarantee for industry, commerce and consumers.

The GRS seal is an in-depth certification that not only guarantees the recycled content of the product (minimum: 20%), but also ensures a sustainable production, the absence of harmful chemicals and ethical conditions of work. This international product standard was created by Certifications Control Union in 2008 and is currently owned by Textile Exchange.

The Recycled Claim Standard (RCS) is a voluntary international standard that establishes requirements for third-party certification of recycled content and chain of custody. The goal is to increase the use of recycled materials. The RCS reference does not address the use of chemicals or other social or environmental aspects of production beyond the integrity of the recycled material. RCS is based on chain requirements Content Claim Standard (CCS) custody.

In order to ensure working conditions for people in the ready-made garments industry and to avoid incidents in the countries where we purchase our products, TH Clothes considered essential to become a member of the International Health and Safety Agreement in Textile and Clothing Industry (International Agreement).

This agreement is legally binding between clothing brands and unions, with the aim of making textile factories safer. TH Clothes thus takes extreme care with the working conditions of all those who contribute to the production of its products, so it provides all the guidelines so that they are safe throughout the production process. In this way, TH Clothes, in partnership with Bangladesh suppliers, ensures that all measures are being taken to build a better future for the clothing business.

The FAIR COTTON and ECO FRIENDLY labels on our products are a testament to our firm commitment to sustainability. The FAIR COTTON label ensures that we use cotton grown responsibly, improving farmers' conditions and respecting the environment. Meanwhile, the ECO FRIENDLY label reflects our dedication to reducing our environmental footprint, whether through recycled materials or supporting conservation initiatives. These labels represent a solid and ongoing commitment to a more sustainable future for all.

We are currently experiencing a worldwide appeal for a more active and intense awareness of packaging, so, following its plastic reduction process, the brand has increasingly invested in the use of biodegradable materials, such as cardboard. This time, a program was created to reuse all shipping packaging, in order to minimize waste and ensure responsible use.

LESS PLASTIC! THIS IS NOT JUST AN ACTION, IT'S A POSITION!

TH Clothes takes environmental responsibility very seriously, and it's precisely for this reason, and committed to reducing plastic consumption in our transactions, that we have decided to reduce drastically this material in most of our packaging. In addition to this measure, we have eliminated plastic straps in our boxes, which is another step in strengthening our commitment to environmental responsibility.

The DNA of the Portuguese people is widely recognized in the textile world. Its success story dates back to the 16th century with the construction of the sails used by Portuguese ships. Since that time, the quality of construction and the design of Portuguese brands is appreciated all over the world, so these were the bases that contributed to the fact that, nowadays, Portuguese textiles mean flexibility, speed, consolidated knowledge and innovation. Based on these premises, TH Clothes continues to invest heavily in the quality of its products and in the expansion of its ranges, always with the vision of a future marked by differentiation and added value at the most diverse levels.

P O L O S H I R T S

Polo shirts have been constantly evolving since their invention in the 19th century. In addition to its common use linked to sports, polo shirts are gaining more and more fans in the promotional market. Being a product of excellence, our polo shirts are a unique and distinct product that go beyond refinement, managing to reconcile elements such as quality, durability, and detailed finishes.
