

Welcome to our series of customizable newsletters! We know that having flexible marketing materials is essential for our resellers. That's why we've created our newsletters in an editable format, so you can easily tailor them to your specific needs.

Upon receiving our newsletter, you'll notice that each component is divided and organized in numerical order. But how does this facilitate customization? Simple! Each part of the newsletter is already cut out and ready to use. You don't need to be a design expert to make adjustments.

These pieces of the newsletter are all in the PSD file (Photoshop), organized in layers for intuitive editing. From images to text, everything is there, allowing you to make changes quickly and accurately.

To incorporate your company's logo, we understand that not everyone is familiar with Photoshop. Therefore, if you prefer a simpler approach, just replace image 1 of the newsletter with your logo in the same dimensions. This way, you can customize your newsletter easily and quickly, ensuring that your company's logo is used in image number 1 of each newsletter, and thus, is always present and highlighted, showcasing your identity in all communications.

A large, light gray rectangular area serves as a placeholder for a logo. In the center of this area is a smaller, darker gray rectangle containing the text 'PLACE YOUR LOGO HERE' in white, uppercase, sans-serif font.
